DS Logon

Safeguarding Your Credential

We take the protection of your personal information very seriously and we are continuously looking for ways to improve the security features of DS Logon.

Our goal is to provide a strong credential that is easy to use and maintain throughout the DoD and VA.

By utilizing DS Logon, the DoD and VA can ensure that access to your Personally Identifiable Information (PII) and Personal Health Information (PHI) is safe and secure.

Features

- Easy to Use—
  Ability to sign-on to numerous websites using a single username and strong password

- Increased Security—
  Protect PII and PHI with National Institute of Standards and Technology (NIST) compliant Level 2 credential

Services

- Identity Vetting & Authentication—
  DS Logon Authentication Service

- Authorization Attributes—
  DS Logon Identity Management Web Service

- Credential Issuance—
  DS Access Station (operator-based site) &
  My Access Center (self-service site)

Please visit the Help Center in the DS Logon Self-Service site for more information:

Current Applications using DS Logon

- Beneficiary Web Enrollment (BWE)
- Civilian Employment Information (CEI)
- DMDC Reserve Component Purchased TRICARE Application (RCPTA)
- DoD Spouse Education and Career Opportunities (SECO)
- eBenefits
- Family Subsistence Supplemental Allowance (FSSA)
- Health Net Federal Services
- Humana Military
- HRSAP Web Application
- Joint Qualification System (JQS)
- MetLife
- milConnect
- My Army Benefits
- Military Spouse Career Advancement Accounts (MYCAA)
- myPay
- My HealtheVet (MHV)
- myTRICARE
- RAPIDS Self Service (RSS)
- Remote Order Entry System (ROES)
- RPAT Beneficiary Web App
- TPharm Express Scripts
- Transition GPS
- TRICARE 4 U
- TRICARE Online (TOL)
- TRICARE Overseas
- TRICARE Reserve Select
- UHC Military West

DS Logon

Overview

DS Logon (DoD Self-service Logon) is a secure, self-service logon ID account created by the Defense Manpower Data Center (DMDC) as an identity credential that allows people affiliated with the Department of Defense (DoD) or the Department of Veterans Affairs (VA) access to numerous websites using a single username and password. DS Logon supports the Personnel Identity Protection (PIP) Directive and National Institute of Standards and Technology (NIST) e-Authentication guidance providing a high level of trust that you are who you say you are (authentication assurance) in situations where Common Access Card (CAC) authentication is not available. The NIST has defined separate levels of assurance:

- Level 1 would be equivalent to self-registration. Websites or applications do not need to know who you are, just that you are the same person who registered previously and that is using the account.

- Level 2 credential requires a certain amount of confidence or "level of assurance" that you are who you say you are. This is why in person proofing is required for level 2 credentials. This level of assurance proofing is required to fully access participating websites or applications.

Why should I use DS Logon?

DS Logon Account offers a high level of trust that you are who you say you are (authentication assurance) in situations where Common Access Card (CAC) authentication is **not** available. DS Logon allows access to numerous websites using a single username and password only for eligible DoD and VA affiliates.

DS Logon saves time by potentially eliminating the need for manual correspondence i.e., written letters, completion of forms by allowing you to make your own changes immediately through websites that use a DS Logon Account for access.

DS Logon is convenient - You can utilize your DS Logon Account 24 hours a day, 7 days a week, other than regularly schedule maintenance to change or review your current information.

Who is eligible for an account?

- Service Members (Active Duty, Guard/Reservists)
- Veterans
- Retirees
- Spouses, including former spouses who are beneficiaries
- Eligible Family Members (age 18 and over)
- DoD Civilians and Contractors

You must be enrolled in Defense Enrollment Eligibility Reporting System (DEERS) to get a DS Logon Account.

How do I get started?

If you have a Common Access Card (CAC) or DFAS myPay Login ID, you may request a DS Logon Account online for yourself and eligible family members by accessing the My Access Center application at https://myaccess.dmdc.osd.mil/.

See Registration section of the Help Center for more information.

If you do not have a CAC or DFAS myPay Login ID, your identity must be confirmed in person at a participating VA Regional Office.

To locate a designated facility, visit the VA Regional Office locator at: http://www.benefits.va.gov/benefits/offices.asp

If you are getting a new ID card issued and you are **affiliated with the DoD**, you can visit a RAPIDS location. You can locate the nearest RAPIDS facility at: http://www.dmdc.osd.mil/rsl

Note: When a military member retires or transfers to the reserves, they may continue to use the same DS Logon username and password or DFAS myPay Login ID and password that was used while on active duty.
