Subj: Update to CY22 AUTHORIZATION TO STORE CLASS V(W) SAFETY
AND SECURITY MUNITIONS

Ref: (a) MCO 5100.29C
(b) NAVSEA OP-5, Vol 1

Encl: (1) Authorized storage limits and locations for safety and
security munitions aboard Marine Corps Base, Camp Lejeune

1. Authorization to store safety and security munitions for CY22 is approved. Per reference (a), all units aboard Marine Corps Base, Camp Lejeune are authorized to store the respective Hazard Class and Division (HC/D) Net Explosive Weight (NEW) limits provided in the enclosure. Units are authorized to store 5.56mm blank ammunition for the purpose of ceremonial details. All blank ammunition will be calculated into the authorized NEW limit.
2. Requests for changes to the authorized limits or storage locations, shall be submitted to the Commanding General, Marine Corps Installations East-Marine Corps Base, Camp Lejeune (Attn: G-4/ESO) via the respective chain of command.
3. Per reference (b), the unit must keep the Explosives Safety Office informed of the current highest hazard stored.
4. A copy of this authorization letter shall be maintained in the unit armory turnover file.
5. This letter supersedes all previous installation Class V(W) safety and security munitions storage authorizations.
6. Point of contact for Marine Corps Base, Camp Lejeune Explosives Safety Office is CW03 Richard N. LeCompte 451-6281.
