Richard Mullins/RAB Member	

**FROM:** Kim Henderson/CH2M HILL

**DATE:** November 26, 2012

## I. Welcome and Introductions

## II. Site Tour

A tour guide was provided to the RAB that included historical information and current status for each site. The Base Unexploded Ordnance (UXO) Awareness Training video was shown prior to the site tour. The following Installation Restoration Program (IRP) and Military Munitions Response Program (MMRP) sites were visited and discussed:

### Air Station/Camp Geiger

- Site 49
- Site 35
- UXO-24/Site 37
- Site 89
- UXO-26

### Mainside/Hadnot Point Industrial Area

- Sites 6, 82, and UXO-22
- Site 78
- UXO-01
- UXO-23

At UXO-23, the RAB members were briefed on the expansion of the non-time critical removal action (NTCRA) for the shot fall zone to include removal of the southern drainage swales and a skeet pile that was found in the woods adjacent to the location of the planned Armory building.

## III. RAB Business

Ms. Rychak indicated that the next RAB meeting is planned for February 21, 2013 at Coastal Carolina Community College.
