2. In the event that (1) a release not meeting the definition of incidental spill; (2) a Hazardous Material/Hazardous Waste release, fire, release of toxic fumes; or (3) similar emergency occurs, the following actions will be taken: **CALL 911**

- a. Trained personnel may only respond to spills of POL or antifreeze. For any other type of HM spill/ release, personnel must secure the area & wait for guidance from Fire & Emergency Service Division (FESD).
- b. If the circumstances of the emergency permit, begin containment of the spill by shutting off valves, constructing earthen dikes, distributing cloth socks/booms in front of storm drains and apply absorbents. Only personnel trained by EMD and authorized by the ECO/ECC shall be allowed to enter the immediate area of the spill. Personnel authorized to enter the area take actions are listed above.
- c. Immediately alert personnel By Voice OR loudspeaker/Intercom or Alarm, if available & can be safely accessed. Evacuees shall assemble in muster areas in accordance with the Emergency Evacuation Plan. (Attachment A)
- d. **Immediately notify FESD by CALLING 911.** Provide the dispatcher with the best estimate/ available knowledge of the amount and type of hazardous material spilled, location of emergency, if any person(s) have been or are likely to be injured, and any other information helpful to emergency response personnel. Stay on the line with the dispatcher and follow the dispatcher’s instructions (if it can be done safely). Continue to advise dispatch of changing circumstances. If accessible, the Hazardous Material inventory should be provided to FESD to inform them of what materials may be present and in what quantity. Upon arrival at the scene, the highest-ranking official will be the On-Scene Coordinator until the arrival of FESD.
- e. Assign one person to meet the emergency vehicle and guide Base Fire Prevention personnel to spill /emergency location.
- f. **FESD will contact EMD**, RCRS at 451-1482 if assistance with cleanup is required. All spill-related materials should be turned in to EMD on the unit's appointed turn in day or by appointment.

****In the event of a lithium battery release, immediately evacuate the area and call 911. Unit personnel are not authorized to respond to a lithium release. Unit personnel are not authorized to respond to any battery release. Call 911.**
